# MOHAMED YAAKOUBI

AI-POWERED SOLUTIONS & LANGUAGE TECHNOLOGY SPECIALIST

## ABOUT ME

Driven, adaptable, and passionate about advancing technology, I am a fast learner who thrives on tackling complex challenges and acquiring new skills quickly. With hands-on experience in **AI**, **web development**, and **localization**, I seek opportunities that foster innovation and personal growth. I am dedicated to leveraging my technical and problem-solving abilities to create solutions that make a meaningful difference. Eager to join collaborative environments, I aim to contribute effectively and grow alongside motivated teams.

## WORK EXPERIENCE

Apr 2025 - Present

Wirestock | Sfax, Remote | Contractor · Full-time  
**Video Metadata Writer**

- Wrote detailed and structured metadata for edited videos, including final goal articulation, video descriptions, cut rationales, and audio choices.
- Segmented raw video footage and authored rationale-rich descriptions for each segment to support clear storytelling and narrative flow.
- Evaluated video content and metadata for coherence, quality, and alignment with intended visual communication.
- Collaborated with the remote team through consistent communication and adherence to content guidelines and structured workflows.

Mar 2025 - Present

UbiAi | Sfax, Remote | Freelance · Part-time  
**Technical Content Writer & Web Operations Assistant**

- Created technical blog content and tutorials on LLM fine-tuning, NLP, and AI topics for a WordPress-based platform. [\[Author page\]](#)
- Performed website audits and diagnostics to improve UX, SEO, and platform performance. [\[View sample audit report\]](#) (non-confidential)
- Collaborated with client to plan content strategy, including potential video tutorials and community engagement efforts.
- Acted as a liaison and task coordinator for external media and marketing support to ensure project delivery.

Feb 2025 - Present

DeepL | Sfax, Remote | Freelance  
**Linguistic Editor**

- Evaluated and refined AI-generated Arabic-English translations for accuracy and fluency.
- Identified translation errors, provided corrections, and explained linguistic issues.
- Worked on diverse language tasks, including quality assessment and transcreation.
- Collaborated with DeepL's Language Data team to enhance AI translation models.

Nov 2024 - Present

RWS Group | Sfax, Remote | Freelance  
**Linguistic AI Evaluator - Arabic Maghrebi QA | Meta AI**

- Evaluated multilingual prompts and AI-generated responses in Arabic to refine advanced Large Language Models, including projects like Llama 4.
- Ranked outputs based on quality metrics such as coherence, fluency, and cultural relevance to enhance AI-driven conversational tools.
- Provided detailed feedback to improve linguistic and contextual accuracy, ensuring alignment with diverse cultural and linguistic norms.

Jul 2024 - Present

Uber (via Volga Partners) | Sfax, Remote | Contractor · Part-time  
**Localization Vendor Coordinator**

- Evaluated AI-generated content across media using quality rubrics to ensure high standards.
- Validated English-Arabic datasets, maintaining translation accuracy and data integrity.
- Labeled data and provided feedback to improve AI model performance.
- Localization Support: Assisted in localization strategies for Arabic and English user experiences.

Mar 2020 - Present

Unbabel | Sfax, Remote | Freelance | [\(REF Letter\)](#)  
**Machine Translation Post-Editing (MTPE) (EN ↔ AR)**

- Translated and post-edited 1.6M+ words across 8,000+ Arabic↔English tasks.
- Ensured linguistic integrity and cultural appropriateness in AI-assisted translations.
- Provided feedback to improve translation quality and consistency.
- Conducted quality checks to maintain high translation standards.

## PROJECTS

- **Potential (AI Hackathon | Abu Dhabi Spark Data)**  
Led a team to develop an **AI-powered search engine** designed to enhance data discovery for the Abu Dhabi Open Data Platform. Built with **Next.js**, **NLP**, and **real-time API indexing**, the system interprets complex queries, dynamically retrieves datasets, and delivers actionable insights. Its scalable, **API-first framework** empowers organizations to optimize data accessibility across sectors, driving innovation and efficiency. ([Watch Demo](#)).
- **NotYet (AI Hackathon | UVT)**  
Led a team into developing a web application tailored to empower Tunisian students and job seekers. **NotYet** provides **CV analysis**, personalized career advice, and resources for remote work and freelancing opportunities. Built with **React**, **Firebase**, **Azure AI services**, and **prompt engineering**, it raises awareness about job scams and fosters continuous learning for self-improvement. ([Watch early prototype](#)).
- **DocuMed (Bootcamp | MentorNations)**  
Led a team into developing a web application as a solution in the medical field, designed to streamline access to healthcare resources and enhance patient management. Built using **React** and **Firebase**, the app enables users to navigate medical information, manage appointments, and facilitate seamless interaction between patients and healthcare professionals.

-  [Camping](#)
-  [Gaming](#)

Feb 2024 - Aug 2024  
[Toloka](#) | Sfax, Remote | Freelance  
**AI Data Annotator**

- Conducted data labeling, image annotation, and text transcription for AI training.
- Ensured high-quality annotations to improve machine learning models.
- Worked on diverse projects across multiple industries.
- Collaborated with a global workforce to meet task requirements efficiently.

## VOLUNTEERING

Apr 2024 - Present  
[TED Translators](#) | Sfax, Remote  
**Subtitle Editor**

- **Translated and Subtitled TED Talks:** Used **Amara** software to translate and subtitle TED Talks into my native language, ensuring global accessibility.
- **Ensured Quality and Accuracy:** Maintained high translation standards while preserving the speaker's original message.
- **Collaborated with Other Translators:** Worked with peers through the Amara CAT tool, valuing feedback for improvement.
- **Engaged in Continuous Learning:** Enhanced translation skills by exploring diverse topics. Contributed to Global Idea Exchange: Empowered non-English speakers and facilitated the exchange of ideas worldwide.

Jul 2024 - Present  
[Pi Network](#) | Sfax (Remote)  
**KYC Validator (Know your customer)**

- Reviewed submitted identification documents for authenticity.
- Cross-referenced information against official records.
- Maintained a high standard of accuracy and confidentiality.

## SOCIO-CULTURAL ACTIVITIES

- **Artificial Intelligence Training & Hackathon Participation**  
**Virtual University of Tunis**  
**6 weeks / AI Hackathon: 48 hours:**
  - Completed an online training course focused on AI, covering **machine learning**, **deep learning**, **ethical AI**, and **Azure AI**, developing foundational knowledge and practical skills.
  - Collaborated in a team of 4 to create an innovative AI solution during a 48-hour hackathon, achieving recognition by ranking in the top 10 teams among 26 and 100 selected participants.
  - Gained experience in fast-paced project development and teamwork under pressure.
- **Bootcamp Participation**  
**Develop4Nations**  
**Tunis, 6 weeks:**
  - Engaged in a fullstack development bootcamp focused on enhancing skills in both front-end and back-end technologies.
  - Organized by [MentorNations](#) and funded by the Australian Embassy, providing a collaborative learning environment with practical applications in software development.
  - Developed hands-on experience in project-based learning, including a web app solution in the medical field with a team of 3.
- **3D Printing Training:** Completed a 6-hour Introduction to 3D Printing Training conducted by the [American Corner Tunis](#) and funded by the US Embassy, gaining foundational knowledge in 3D modeling and printing techniques.
